

## 3D Business Strategy Programme

Green Sea Coaching's 3D Business Strategy Programme is based on our unique **Discover - Define - Deliver** model.

This customised programme, will set you on the journey to success by focusing on your business AND your people.

### **DISCOVER – where are you now?**

Before setting off, you must know where you are. We'll look at your strengths, weaknesses, opportunities and threats, business planning and strategy,

### **DEFINE – where do you want to go?**

We'll look at vision, values, financial and people performance, your 'why' and articulate what the future looks like.

### **DELIVER – how do you get there?**

We'll explore the 'whats' 'hows' and 'whos', so your strategy can be delivered in the most effective way.
